

Professor Nouriel Roubini

Professor of Economics,
NYU's Stern School of Business
Co-founder & Chairman, Roubini Global Economics

World-class economist who last year predicted the current financial crisis. Offers an unflinching look at the financial future.

Popularly known as Dr. Doom (the title of a profile in The New York Times Magazine, 8.15.08), Dr. Nouriel Roubini is known for his now-vindicated predictions of the current financial crisis. Ignored for a long time by mainstream economists and policy makers, he now receives invitations to speak before such influential organizations as the U.S. Congress and the Council on Foreign Relations. He has been forecasting a serious financial crisis in the U.S. for years, speaking notably before a skeptical IMF about his predictions in 2006. He continues to forecast serious ongoing consequences for the U.S. and world economies. Systematic research informs Nouriel's opinions. From his analysis of past collapses of emerging economies he has identified common factors that support his predictions of crisis in the U.S. and world markets. He is the author of *Bailouts or Bail-ins? Responding to Financial Crises in Emerging Economies*.

Nouriel Roubini is a Professor of Economics at New York University's Stern School of Business and is cofounder and Chairman of RGE Monitor, an innovative economic and geo-strategic information service with 30 economists on staff. He studies international macroeconomics, political economy and the mechanisms of economic growth. Professor Roubini served as a senior adviser to the White House Council of Economic Advisers and the U.S. Treasury Department, has published numerous policy papers and books on key international macroeconomic issues, and is regularly cited as an authority in the media.

With Robert J. Shiller, he contributes to a series for Project Syndicate called Finance in the 21st Century. Nouriel Roubini's writings can be found at www.roubini.com.

共同創辦人及主席

博士素有「末日博士」之稱，準確預測了全球經濟危機，名噪一時。魯比尼博士曾被主流經濟學家及政府官員忽視了一段長時期，現已受到美國國會及外交關係委員會等重要組織重視，屢獲邀請發表演說。多年前，他已預測美國會出現嚴重的金融危機，其中於2006年向當時對其言論半信半疑的國際貨幣基金組織發表的演說最為人人津津樂道。其後，他繼續預測美國及世界各地將出現曠日持久的嚴重經濟問題。魯比尼博士憑著系統性的研究，得出精闢獨到的見解。他分析以往多次新興經濟體系崩潰的情況，發現了相同因素，並據此預測美國和世界市場會出現危機。Bailouts or Bail-ins? Responding to Financial Crises in Emerging Economies 一書正是他的著作。

魯比尼博士是紐約大學斯特恩商學院經濟學教授，也是 RGE Monitor 的共同創辦人兼主席。RGE Monitor 是一家創新的訊息服務機構，由30名經濟學家提供經濟及地緣戰略訊息。魯比尼博士的研究範疇包括國際宏觀經濟、政治經濟及經濟增長機制。他曾任白宮經濟顧問委員會及美國財政部高級顧問，並曾發表多項著作及政策論文，探討重大的國際宏觀經濟問題，其言論常被媒體引用，奉作權威。
